

# MAKING FROM HOME CARDBOARD

This week we are changing it up, using the common resource of cardboard! We would definitely recommend a hot glue gun, otherwise PVA will do the trick in most instances. A metal ruler and a craft knife are often useful as well. See what cardboard you have around the house and let the fun begin!

## EGG CARTONS

The humble egg carton offers plenty of ways to have quick and easy creative fun. These are also great projects to do with the kids, so give them a go! In this section we have animals, flowers and DIY paper clay.

## ADVANCED PROJECTS

For the more ambitious makers, this week we offer links to make a cardboard lolly dispenser, a hydraulic arm and a racing steering wheel for smartphone gaming. Which of these will you make?

## DIY LIFE HACKS

Ever thought about how cardboard could help make your life a little easier? Check out these fun and quirky DIY links. Below, we have a range of smartphone stands and on the right we have a robotic arm and even a combination safe!

## GOT A FEW TOILET ROLLS HANDY?

Common sources of cardboard are trusty old toilet paper and paper towel rolls. Click on the image to the left to check out some quick and easy cardboard projects to get the most creative fun from the good old toilet rolls!

## NEED MORE IDEAS?

Instructables is a vast platform for creative tutorials and has a wide range of cardboard projects. Also, check out Target Engineer on Youtube for more amazing cardboard projects.

Don't forget to share your creations with us online.
